

We are distributors for all major brands in the pump industry such as Lowara, DAB, Grundfos, Calpeda and ESPA, and can source products and spare parts from almost any manufacturer world-wide.

With over 100 years combined experience our team are on hand to assist you with any enquiry you may have regarding pumps and spares. Our skilled team of engineers can carry out installation, commissioning, servicing and repair of pumps and associated equipment.

We also have the facilities to manufacture various products to suit your specification. Over the past few years we have undertaken many projects from overhauling hotel water systems to theme park special effects. We can manage projects from the initial design and consultancy stage to the final installation and commissioning.
