

Precision Pipework Ltd is a specialist pump supplier for many manufacturers from around the world. Aswell as our design, repair, maintenance and installation services we also offer expert procurement of products for domestic and commerical sectors. We also specialise in supply to the marine, oil, gas and energy sectors, pharmaceutical, food production and military.

We strive to give our clients a cost effective solution for their purchasing requirements. We use our extensive experience and technical knowledge to offer products that meet the clients expectations on price, availability and reliability. By using our comprehensive database of worldwide contacts and key suppliers, who we know, that alongside us, can meet our customers' demands. We pride ourselves on offering a consistently high level of service to our customers.

As an independant company, we are able to offer and supply from nearly every major manufacturer around the world. For a list of just some of the pump manufacturers we can source from, [please click here](#) .
